

PLANNING OF SESSIONS – Semester A 2013/14

International Seminars in Life Sciences

code 7550 (semester A)

		Professor	topic	Institution
1	19 th Sep	Girón, Joel	Spanish ham quality and processing	Univ. Polit. València (E)
2	26 th Sep	D'Agaro, Edo	Optimization of farm animal selection systems by means of new molecular techniques	Univ. degli Studi di Udine (I)
3	3 rd Oct	Franczyk-Żarów, Magdalena	Functional food in non-communicable diseases	Univ. of Agric. in Krakow (PL)
4	17 th Oct	Blum, Winfried E.H.	Soils and food security under global change	BOKU Univ. Vienna (A)
5	24 th Oct	Remignon, Hervé	Foie-gras production technology	ENSA Toulouse (F)
6	7 th Nov	Kallerhoff, Jean	Gene cloning, transfer and expression in microorganisms and plant cells	ENSA Toulouse (F)
7	14 th Nov	Lingenfelder, Marcus von Detten, Roderich	The basis for REDD: from tree diameter to CO ₂ -equivalents Climate change & forest enterprises: long-term decision-making in the face of uncertainty	Albert-Ludwigs-Univ. Freiburg (D)
8	21 st Nov	Németh, Éva	Utilization of medicinal plants and quality of their products	Corvinus Univ. Budapest (HU)
9	28 th Nov	Manzano, Marisa	Molecular Biology techniques application in food microbiology analysis	Univ. degli Studi di Udine (I)
10	12 th Dic	Matzarakis, Andrea	Climate change and cities – How to survive	Albert-Ludwigs-Univ. Freiburg (D)

Life Sciences area (main and related areas)	Seminar nr.	% of course
Agronomy	2-4-5-8	40
Biotechnology	2-6-9	30
Food Science and Technology	1-3-5-9	40
Forestry	7(2)	10
other	4-10	20
